Up-to-date race info on www.brbpromotions.com

-- Equipment Standards --

- All bikes except minis must have foot peg sliders.
- All machines must have operating front and rear brakes.
- Headlight, taillight and turn signals must be removed or have their lens covered with tape.
- Center and side stands must be removed.
- All engine, transmission and final-drive-unit oil drain plugs must be safety wired or have a glob of silicone smeared upon the bolt head and adjoining surface.
- Cooling system must not contain anti-freeze.
- Tip: Use distilled water with WaterWetter added.
- Carburetor vent tubes must be routed into a catch bottle of at least 6 oz. capacity.

Number Plates

- Must have a suitable number plate surface on the front and both sides of the bike
- Motocross or dirt track style plates are recommended
- The plate's background color must contrast with the color of the numbers used so that you can be scored

Approved Tires

- Any tire is allowed, but one of the following are recommended:
 - Supermoto specific tires
 - Class "C" dirt-track tires
- Roadrace slicks, cut slicks or rain tires
- DOT tire

Required Riding Gear

- Roadrace or dirt-track leathers are highly recommended
- Motocross gear will be allowed, but must include knee cups, hip pads, elbow pads and a chest/back protector or heavy enduro jacket
- Boots must offer full ankle protection
- Roadrace, street or suitably protective gloves
- Undamaged full-face road or motocross helmet with face shield or goggles
